IN – not	JECT – throw	ION – state or condition, changes verb to noun
PRO – for, forward	JECT – throw	ION – state or condition, changes verb to noun
RE – again, back	LOC – place	ATION – state or action, changes verb to noun

The Garbage Problem – Improper garbage disposal can cause contamination of subterranean water sources. Relocating garbage dumps doesn't necessarily solve this incredibly unhealthy problem. Laws preceding the discovery of this problem were predictably relaxed in terms of garbage disposal. Since the discovery, authorities have proceeded to toughen these laws and have injected funds into reevaluating ongoing practices. Interjection of environmental organizations has helped to convince an incredulous public of the depth of the problem and the need to recycle. Some garbage dumps have receded in size, but most have increased as the unbelievable amount of garbage produced continues to multiply unnecessarily.
